DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I claims 1 - 4 in the reply filed on February 17, 2005 is acknowledged.

Claim 5 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group II claim, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 17, 2005.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Fig. 1b does not show the C – C cross section as described in page 2, lines 13 – 15. Similarly, Fig. 1d does not show the C – C cross section as described in page 2, lines 21 – 25. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

3. Claims 1 and 3 are objected to because of the following informalities:

In claim 1, line 11, following the words "alignment mark", the phrase, "caused by substrate deformation" should be inserted for making the claim language more clear. In claim 1, line 15, following the words "alignment mark", the phrase, "caused by substrate deformation" should be inserted for making the claim language more clear. In claim 3,

In claim 3, line 16, following the words "alignment mark", the phrase, " caused by substrate deformation" should be inserted for making the claim language more clear. Appropriate correction is required.

Allowable Subject Matter

4. Claims 1 – 4 are objected to for having minor informalities, but would be allowable if rewritten in corrected form including all of the limitations of the base claim and any intervening claims.
